

Estrel Berlin – wheelchair accessible & *welcoming*

The Estrel Berlin is an wheelchair accessible hotel and congress center. The main entrance of the facility is accessible by wheelchair via a street level rampsituated at the right side of the hotel, at the property's triangular apex. For those arriving by car, there are four designated disabled parking spaces in the hotel's underground garage close to the entrance and elevators enabling our handicapped guests a quick and barrier free access to the spacious atrium.

The Estrel Hotel including the culinary outlets, the Estrel Congress Center as well as the Estrel Showtheater with its show "Stars in Concert" are all barrier free, accessible by ramps and elevators (base area 126 × 240 cm, operated via a keypad). 10 hotel rooms are specially designed for our handicapped guests. The wide doors, level floors and spacious living areas ensure a comfortable stay. The bathrooms in these rooms are also equipped accordingly. The toilets are elevated and fitted with enough surrounding space enabling ease of access. The showers are equipped with a barrier free entrance as well as handles located in the showers and near the toilets and sinks.
